PROFESSIONAL PROFILE

Information Technology & Management student with a strong interest in Project Management, Product Management, and FinTech. Hands-on experience developing academic and startup-oriented software projects, contributing to backend development, product ideation, technical problem-solving, pitching, quality assurance, and event operations. Comfortable working across technology and business contexts and translating ideas into practical solutions for users.

EDUCATION

Daffodil International University (DIU), Savar, Dhaka | B.Sc. in Information Technology & Management

July 2024 – June 2028 (Expected) | CGPA: 3.89/4.00

Relevant focus: Information Technology, Business, Project Management, Data & FinTech-related field

SELECTED PROJECTS

RentAll BD | Product / Startup Project

- Developed a Bangladesh-focused peer-to-peer rental platform inspired by rental marketplaces such as Hygglo and Fat Llama.
- Designed the concept around enabling individuals to rent out or rent tools and equipment through a localized platform.
- Worked on adapting the business model and product approach to Bangladesh's market, user behavior, and practical operating context.
- Contributed to product ideation, technical direction, and problem-solving throughout the project.

Dhaar De | Personal Finance & Lending Tracker

- Conceived and developed a personal finance application for tracking money lent to and borrowed from individuals.
- Contributed to backend development and core application functionality, connecting product ideas with working software.
- Worked on features including reminders, double verification, messaging, an analytics dashboard, and SmartSettle.
- Focused on making informal peer-to-peer lending easier to track, manage, and settle.

LEADERSHIP, COMPETITION & EXPERIENCE

InnovateX Startup Pitch Competition 2026 | CTO & 1st Runner-up

- Served as CTO and idea curator for the team, helping shape the product concept and its practical implementation.
- Contributed technical work, supported product and solution development, and performed quality assurance before and during the pitch.
- Delivered the project pitch and helped communicate the technical and business aspects of the solution to judges.

Taj Pharmacy | Customer & Operations Support | Semester Breaks

- Handled customers and supported day-to-day operations in a customer-facing environment.
- Provided prescribed medicines and processed customer payments accurately.
- Gained practical experience in customer communication, responsibility, and transaction handling.

DIU Volunteering Service Club | Volunteer

- Supported DIU Family Day through food distribution and helped maintain smooth activity flow for participants.
- Assisted students during Parents' Day activities, helping them coordinate and participate with their parents.

ITM Summit 2025 | Organizing Team Member

- Supported event logistics and decoration as part of the organizing team.
- Worked with team members to help prepare and execute event activities.
